

betano apostas brasil

In computer science, this term is typically associated with proving a user's identity. Usually, a user proves their identity by providing their credentials, that is, an agreed piece of information shared between the user and the system.

What is Authentication? Definition and uses - Auth0 : intro-to-iam : what-is-authentication

Username/password authentication

Username and password are the most common form of authentication. This is where a user enters their username and password into a login form, and if the credentials match what is stored in the database, the user is granted access.
