The golden age of Zeppelins is the theme of this slot from up and coming slot maker Yggdrasil. If anything it is a little bit steampunk in its feel, with the crazy costumed Victorian inventor types featuring on the reels. There is only one major feature in this game, though it is a good one. Free spins come with transferring and sticky wilds, which can add up to a lot.

Paper.io is for the whole family and doesn't require an Internet connection. Paper.io on the App Store : a paper-io

You can play paper.io online and offline both on a mobile device and a desktop computer. Get paper.io and join the world gaming community. Manage a small board and win territory from your rivals. Paper.io 2 - behold the sequel to the popular game.
